facials: descriptions

basic facial. cleansing of face, neck and décolleté; mist steam; massage (cream); hydrating mask. **results:** fresh, healthy, radiant, soft skin

deep pore cleansing facial. basic facial; mist steam, and sothys desquacreme deep pore cleanser to remove dust and sebum (oil) from congested skin; extraction to remove blackheads and milia/whiteheads; normalizing, cooling and astringent mask. **results:** immediate results; mattifies and detoxifies.

deep pore and hydrating facial. deep pore cleansing facial; additional moisturizing ampoule with galvanic electrode to infuse skin with deep moisture. **results:** rejuvenated, smoother, firmer skin; ultimate hydration.

hydradvance institute treatment. *phase 1:* basic facial; extra exfoliation. *phase 2:* hydrating mask with acupuncture; massage balm for penetration of skin; rebalancing mask to restore skin's water balance. **results:** plumps and relaxes skin; smoothes out wrinkles; stress reduction.

collagen institute treatment. *phase 1:* exfoliate dead and rough skin; acupuncture to release toxins from skin; restructure skin by ultra precise stimulation of every wrinkle and fine line; lifting massage for facial muscles. *phase 2:* firming gauze mask to tighten face. **results:** outstanding anti-wrinkle and firming results; relaxation and stress relief.

resurfacing institute treatment. exfoliating mask to treat asphyxiated skin and dull, blotchy complexion; glycolic and salicylic acid peels to treat oily skin, tired skin, thickened/shiny pores and comedones; deep pore cleansing facial; extraction; soothing massage; refreshing mask. **results:** refreshes and rejuvenates for radiant, supple skin.

acne facial treatment. deep pore cleansing facial with specific products aimed at treating/normalizing secretion of sebum (oil) that causes acne. **results:** calms skin surface.

facials: descriptions (continued)

professional peeling (sothys). eliminate dead skin cells to promote/accelerate renewal of skin cells. **results:** immediate and visible results from first peel; even skin tone with radiant, glowing effect.

eye contour treatment. exfoliate around eye contour; lymphatic suction to remove puffiness and dark circles; massage around eye area to smooth out wrinkles. **results:** reduces puffiness; diminishes fine lines and appearance of dark circles.

eye lift treatment. eye contour treatment, plus micro-currents to lift muscle around eye contour and smooth out wrinkles. **results:** all the benefits of the eye contour treatment; restoration of vibrant, youthful shape via muscle reinvigoration.

microdermabrasion: treatment program for sun-damaged skin, uneven/granular skin, fine lines and wrinkles, enlarged pores, blackheads and comedones, acne scarring and superficial scarring. flow of crystals on dead skin to abrade/remove dead skin cells; stimulate blood circulation and strengthen the collagen and elastin network (which gives skin its strength and flexibility). **results:** repairs damaged skin; promotes even skin tone and younger looking skin.

microdermabrasion with micro-currents. microdermabrasion, plus drainage to treat water retention, lifting of muscle, smoothing of wrinkles and fine lines. **results:** all the benefits of microdermabrasion; restoration of firm and toned skin via muscle reinvigoration.

microdermabrasion with light therapy. microdermabrasion, plus light therapy (by soli-tone); blue light penetrates into the sebaceous gland to destroy bacteria that causes acne, and removes redness and irritation. **results:** detoxifies and purifies.
